CONTAINER HOUSE (6X2.4M)

ALL OUR HOMES WILL BE DELIVERED TURN-KEY. ALL PRICES INCLUDE IMPORT DUTIES AND VAT.

Additional information

You have the flexibility to alter the layout of the "Turn-Key Container House, as long as the exterior dimensions remain unchanged. A one-time setup fee of NafL 4,500 applies for any new drawing (house layout).

Our luxury Container Houses have standard dimensions of 6 x 2.4 meters. The Container Houses can be interconnected, placed side by side, or stacked. The price per Container House is NafL 44.950. In our example, we are assuming 3 or 4 containers to form a luxury Container House. This number can of course be reduced or increased. The containers are supplied without a foundation. Optionally, we can assist you with this.

The price includes assistance with obtaining a building permit and/or connection to Aquaelectra. The costs of the building permit and connecting the containerhouse to the water and electricity network are borne by the owner.

In addition to building the Container House we can also assist with the construction of a swimming pool, carport, garden landscaping, etc. We provide complete peace of mind, so you only have one point of contact. This makes things much easier.

If you have any further questions, please don't hesitate to ask.

With sunny regards, Rene Bolsenbroek." & Sjoerd Huizinga
