

## PROJECT REPORT

Gaza Strip is one of the most densely populated areas in the world, people in Gaza Strip live in an area of 365 Km<sup>2</sup> with more than two million capita under imposed siege has intensified. And affected all life sectors in Gaza Strip, where this siege continues for 14 years. As a result, the suffering of needy and poor families in the Gaza strip is increasing terrifyingly way according to the humanitarian figures that were recorded in Gaza Strip by Gazze Destek association monthly report (October 2021). Where the poverty rate reached 56% of people in the Gaza strip, unemployment reached 48.6%, and more than 86.1% of Palestinian households depend on humanitarian aids from donor organizations and philanthropists.

In addition to what the Gaza people suffer for 15 years, new suffering was added to the people of Gaza due to the high rate of water pollution, which amounted to 97%, so it became unfit for use, and not suitable for drinking. In many places, it became unfit for irrigation of crops.

In addition, 10% of the Gaza Strip area is considered areas that are not served by water and sewage networks, and 10% of the existing networks are old and suffer from many problems. In addition, 60% of treatment plants are of low efficiency and require maintenance or replacement.
