

PROJECT REPORT

Accessing to sufficient, affordable, continuous and clean water is the basic need of human being. Sustainable Development Goal (6.1) calls for universal and equitable access to safe and affordable drinking water. However, most of people living in remote area in Cambodia are in dire need of improved water source for drinking and domestic consumption .Having access to improved water supply can contribute positively to health and poverty alleviation. Recently, with the support from the Water Bender.Sg, the EFC has executed the Water Pump Project for the Needy in three provinces.

1. PROJECT SUMMARY

Project Name: Water Pump for the Needy

Implemented by: Emaan Foundation Cambodia

In Collaboration with: Emaan Catalyst Community

Sponsored by: TheWaterBender.Sg (Mr. Ismail Weiliang)

Total Fund: USD 3,897

2. PROJECT BENEFICIARIES AND TYPE OF WATER WELL

EFC has selected the beneficiaries from three provinces namely Tbong Khmom, Kratie and Steung Treng. There are three big-pumps are installed in Tbong Khmom, one small pump in Kratie and one digging well in Steung Treng province. The different types of water well construction is due to soil layers and source of ground water.

This project allows 87 poor people to access to cleaned water. Previously they had to travel far away to get the water and it was dangerous during the night time. The Table below present the beneficiaries, their address and type of well.

N	Name	Occupation	Address	No.of Beneficiaries	Type of water well
1	Les Vansa	Fisherman (sick)	Tbong Khmom District- Tbong Khmom Province	35 people	Big Pump

2	El Nhor	Senior	Krochmar District- Tbong Khmom Province	30 People	Big Pump
					
3	Tin Ya	Labor Worker	Krochmar District- Tbong Khmom Province	30 people	Big Pump
					
4	Seom Pazy	Labor Worker	Snoul District- Kratie Province	20 people	Small Pump
					
5	Tha Map	Labor Worker	Thala Borivat District- Stueng Treng Province	15people	Digging Well

3. PROJECT EXPENSES

N	Description	Unit	Unit Price (\$)	Amount (\$)	Remarks
1	Install Big Pump work	3	900	2700	
2	Install Small Pump work	1	180	180	
3	Digging Well	1	300	300	
4	Plaque and Banner		50	50	
5	Logistic and OPS		667	667	
Total				3897	

4. PROJECT IMPACT

The water well project supported by the Water Bender.Sg benefited 130 poor people living in remote villages. This project not only allows the beneficiaries to access to cleaned water for drinking and other consumption but help reduce the beneficiaries' expenses on buying water. Moreover, access to cleaned water will improve beneficiaries' health.

On behalf of beneficiaries, we would like to extend our appreciation and gratitude to Brother Ismail Weiliang, the founder of TheWaterbender.sg for his initiative and efforts in raising fund to support this project.
